

Trading

Our trading activities are the growth engine of the FGV flagship

Our trading business is operated by our subsidiary FGV Trading Sdn. Bhd. (FGVT), one of the lead revenue contributors to the Plantation Sector. We consistently nurture our long-standing existing markets and venture into new markets to accelerate our growth.

We deliver vegetable oils, processed palm oil and lauric oil to local markets and export destinations such as China, Pakistan and India. FGVT is a one stop center for the sales of bulk products, and we manage end-to-end of the supply chain spectrum, with a strong team of experienced and successful traders handling edible and non-edible products. We have built long-standing relationships with our buyers, and will continue to establish stronger linkages in the industry and provide excellent services to our markets.

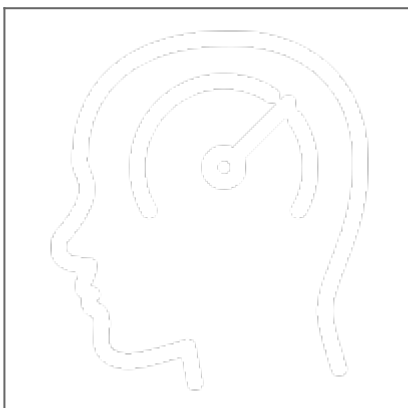

Our Commodities Trading Activities

Our trading activities are guided by the respective Policies & Procedure for Commodity Trading.
