According to the Future Market Insights report, the global margarine market reached a value of US\$33 billion in 2022, and the market is expected to reach US\$53.7 billion by 2032, with a CAGR of 4.9%. ADELA margarine is a multi-purpose margarine made from the finest palm oils and enriched with 9 vitamins, including Omega 3, 6, and 9, and contains zero cholesterol. It has a superior taste and is versatile in its usage, making it an ideal choice for baking cakes, pastries, and biscuits, as well as a perfect bread spread. The margarine comes in

convenient and hygienic packaging, available in four different sizes: 240gm, 480gm, 1kg, and 2.5kg tubs.

“MENA is one of the strongest regions for FGV, which operates in more than 10 countries across Asia, the Middle East, North America, and Europe. Currently, FGV’s export products are sold in packed size to international traders and direct buyers. The MENA margarine market is poised for growth, with huge opportunities in hypermarkets, convenience stores, and e-retail markets. The newly launched ADELA Margarine is positioned to leverage the strength and presence of other FGV products in the region,” said Zulkifli Othman, Head of Downstream of FGV.

FGV also displays a variety of high-quality products including cooking oil, shortening, vegetable ghee and margarine under the SAJI, ADELA & SERI PELANGI brands as well as fresh produce products under its Ladang’57 brand. FGV’s participation in Gulfood 2023 is a testament to its commitment to establishing a solid presence in the global food market in line with its vision to delivering sustainable foods and agriproducts to the world.

The MENA market is a large and diverse region with a rapidly growing population and a rapidly expanding economy, an attraction for businesses looking to expand their customer base. The demand for Malaysian F&B products in the MENA region has been growing its popularity. In 2022, Malaysia's exports of processed food recorded a double-digit growth of 15.5% to reach RM28.40 billion from RM24.60 billion last year. Exports to the Gulf Cooperation Council (GCC) region also increased significantly by 23.1% to RM1.71 billion as compared to 2021 which recorded RM1.39 billion.
